Very informative and indepth. If you want to know the rationale for the WTO valuation rules, how they compare with tax tranfer pricing rules, and the like, this is the definitive source!0 of 0 people found the following review helpful. an update will make it even better.By Customervery informative.. an update will make it even better.0 of 0 people found the following review

helpful. Good readBy Firaz HoseinReceived the book in quick time. The book is a practical approach to Valuations with relevant examples. It has already helped me in certain areas of my job. I would be interested in other related publications.

This guide to the WTO Customs Valuation Agreement is based on the authors' experiences of teaching its finer points to customs officials and policy-makers around the world. Covering the methods of valuation and the provisions on enforcement, implementation and dispute settlement, the authors give practical examples, explain interpretative decisions of national and international customs bodies, and analyse the history of its negotiation. Written as a learning tool, it helps both new and experienced policy-makers, customs officials, importers and exporters to gain a deeper understanding of the Agreement's function and aims.
